

NEW!

Stand-up pouches with spout

We offer high-quality stand-up pouches with spouts that can be flexibly adapted to your individual demands.

Depending on the specific requirements of your product, you can choose between pouches made from our innovative **Ultra High Barrier mono-material composite** or **conventional composite materials**.

For maximum flexibility, the spout can be mounted in different positions:

- ⊗ **in the center** as a center spout
- ⊗ **on one side** of the pouch as a corner spout/edge spout

The finished pouches are delivered either loose in boxes or on a convenient sliding system, depending on your logistical requirements.

Do you have a special size in mind?

We will be happy to check the feasibility and consider your requirements.

We look forward to your inquiry!

Well protected in all areas
